October 12, 2012, 1:34 pm -- /[EPR NETWORK](#)/ -- Many online casinos offer bonuses to new players, but Platinum Play UK Online Casino's bonuses are among the best.

One of the advantages of online gambling over land-based casinos is their ability to give generous bonuses to their players. Naturally, not all casinos offer the same bonuses, but a little research shows that Platinum Play UK [Online Casino](#) offers some of the best bonuses available online.

Many casinos offer the bonuses to entice players to sign up and the players may only receive the bonus once they have made a deposit. At Platinum Play UK players get 1,500 (GBP Pounds for British players) in casino credits upfront, before they've deposited. Players simply need to register an account to get this bonus, and once they have received it, they have 24 hours to play as many games as they like. Players can also keep any winnings, up to 100, which is an unusual feature for online casinos to offer.

Each new player will receive a 100% deposit match bonus, up to 200, on his/her first deposit. The minimum purchase is 20, so if players keep this percentage-based bonus in mind, they would do well to make a bigger purchase upfront to take advantage of the bonus.

Many [casinos online](#) offer bonuses to attract players, but few offer so much upfront, with so little required from their players. This casino has the confidence to allow people to try out its games upfront, and still rewards them when they do make their first deposit. This combination makes the Platinum Play UK [Online Casino](#) and its welcome bonus one of the best available.
