October 19, 2012, 3:56 pm -- [/EPR NETWORK/](#) -- The Spooktober promotion's final week presents an accumulator slots tournament, Hot Spots for free spin prizes and even more treats on Black Cat Bonus Day.

It's the final week of Spooktober and Royal Vegas UK [Online Casino](#) has taken the month-long Halloween promotion up a notch to finish it off with a flourish. From 23 to 31 October, the casino will be presenting the SUPERCASH slot tournament. The jackpot starts at \$3,000, but the more people play in the tournament, the bigger the jackpot grows.

While [Royal Vegas](#) players may get a thrill from watching the jackpot climb as the week draws to a close, naturally not everyone can win the jackpot. To make the week more exciting for players further down the Leaderboard, Royal Vegas UK has created 50 Leaderboard Hot Spots. The players who finish the tournament on one of these Hot Spot positions will each win 25 free dpins on The Twisted Circus, one of the casino's quirky new slot games.

The Hot Spot positions are listed in the Promotions section of the casino software. When players click on the Spooktober

banner's More info button, they will find an explanation of the SUPERCASH tournament, as well as the 50 Hot Spot positions.

In addition to the accumulator tournament and the Free Spins Hot Spot give-away, there is also a Black Cat Bonus day in Spooktober this week. On one day during the week, players will be able to earn extra Rewards points, but the actual day is shrouded in secrecy. Players who would like the extra bonus should keep an eye on the UK [online casino](#) lobby, so they don't miss out.
