ComfyBabies are now stocking brand new [Baby Changing Bags](#) as part of their expanding range. The popular Wallaboo changing bags are made from faux suede with a fleece trim and function both as a stylish shoulder bag and baby changing facility. Adapt the Wallaboo to carry on your shoulder or attach to a pram, to alleviate strain. This bag makes a trip out and about easier and less stressful, as you can compartmentalise all your baby's items. Inside there are five pockets and two large compartments, made especially for nappies and wipes. The two carrying straps are padded and adjustable to suit your height, making carriage as comfortable as possible.

Inside the [Wallaboo baby changing bag](#), there is a thermal bottle holder, which will keep your baby's drink warm or cool for a few hours. A special pouch for used nappies and wipes makes it ideal for separating your own items, such as your mobile, diaries etc. all contained in two interior zip-up pockets. This bag also holds the essential baby changing mat, which is padded and washable that you can bring out at any time when you're in a cafe or restaurant wash facility. The interior lining of the Wallaboo makes it easy to clean and wipe dry, so you won't have to worry about stains.

The Wallaboo Changing Bag has a number of detachable features, including the insulated bottle holder, which you can replace with space for your own bits and bobs. Uniquely, the Wallaboo is water resistant, so you can afford spills of any kind without ruining the appearance or durability of the bag. Wallaboos are available in six gorgeous colours, including red, blue, pink, lime, chocolate and black. Generous dimensions and excellent quality will make this bag part of your new [baby essentials](#).
