Hengan Securities Launches Redesigned Fixed Income Trading Platform

November 21, 2012, 3:33 pm -- [/EPR NETWORK/](#) -- Hengan Securities today introduced Hengan Securities Mobile Pro, a first-of-its-kind, integrated mobile software solution offering customers quick and easy wireless access to their Hengan Securities accounts. Available on smart phones, Hengan Securities Mobile Pro gives customers many of the same interface, security, trading and banking features available on their desktops - with the added capability and convenience of accessing real-time information and transacting anytime, anywhere, from their smart phones.

"Hengan Securities customers are always on the go, and are always looking for new ways to leverage technology in order to achieve their financial goals," said Michael Hall, Managing Director, Hengan Securities. "With Mobile Pro, customers have real-time access to their accounts and the information that can move markets."

Mobile Pro offers smart phone users:

- Free real-time streaming stock and options quotes
- The ability to trade equities and options, including certain conditional orders
- Brokerage and bank account QuickTransfers, including those from outside financial institutions

- Live watch lists and portfolios
- CompleteView of all Hengan Securities accounts on one screen
- Secure transactions backed by the Hengan Securities Complete Protection Guarantee

"Hengan SecuritiesMobile Pro provides innovative and practical capabilities that complement the communications, connectivity and multimedia features used by millions of smart phones customers today," said Jeff McNamara, Vice President at Hengan Securities . "We are pleased to enhance the mobile experience for our customers."

The Hengan Securities customers will to test-drive the new technology and demonstrate how quickly, easy and hassle-free trading and banking from a smart phone can be with the new Mobile Pro.

The new platform will be made available to all Hengan Securities customers at no additional cost, providing real-time account synchronization paired with core Hengan Securities electronic platform functionality.
