ProMarketing Leads LLC is pleased to announce the addition of automobile database information that includes millions of records about various details of owner information and is the largest available Automobile Owners database in the industry.

PAPILLION, NE, November 30, 2012, 10:01 am -- [/EPR NETWORK/](#) -- ProMarketing Leads adds an automobile database that includes millions of records and is the largest available Automobile Owners database in the industry. It is compiled, updated and verified through transactional information each month. These are known automobile owners.

Don't get fooled into using data that is outdated and inaccurate. We dare you to compare us to the competition. Pro Marketing Leads promises to save you money and increase your ROI. Our file consistently outperforms other Automobile files for accuracy, counts and response rates.

This Automobile Owner Database is not derived from state motor vehicle and therefore not subject to the Shelby Act/Driver's Privacy Protection Act of 2000.

ProMarketing Leads automobile database offerscustomers...

Aftermarket Promotions: Auto dealers, manufacturers and specialty stores target consumers based on automobile make/model/year and owners age and/or income information. ProMarketing Leads offers anintegrated database of

consumer, vehicle, email, and telephone information. This comprehensive database is able to generate great [marketing lists](#).

Service Center Programs: Dealer repair centers, specialty service centers and independent service centers can market customers based upon make, model, year, and address criteria.

Extended Vehicle Warranty Programs: Consumers are holding onto vehicles for a longer period of time, and may need additional insurance against future service repairs. Taylor Direct makes it easy to find vehicle owners based upon age of the vehicle, mileage and address information

Dealer Trade-In Programs: Many dealers seek specific vehicles based on trade-in values and demand. Our true owners file allows dealers to target make/model/year that are currently owned within a certain radius of their dealership and base an offer on this information.

Key Features: 200 Million VINs, 160 Million Current Owners, 180 Million Addresses, 82 million telephone numbers, Select by Year, Select by Make, Select by Model, Select by mileage, Select by Engine type, Select by Auto Class, Fuel Type, Style, Income Gender, Home Ownership, and Many more selections available...ask!!
