St. Paul, Texas, July 07, 2015 -- [/EPR NETWORK/](#) -- Superior Notary Services, one of the largest and best known notary service firm in the U.S., announced today that their customer testimonials have been approved by Proven Credible, a noted third-party verification service. Superior now joins the ranks of the many other firms that have used the Proven Credible system to verify that the testimonials posted by their clients are genuine.

"Having our client testimonials verified by a third-party service such as Proven Credible is a tremendous asset to our firm," said Clay Mason, president and CEO of Superior Notary Services. "Proven Credible was the ideal way for our firm to present real, substantiated customer feedback to our clients because anyone can post glowing reviews on their website, but how many of them are credible?" Mason then added, "Our clients count on the convenience, efficiency and effectiveness of our services and the professionalism of our agents and support staff. With Proven Credible verifying our client testimonials, they can be sure that the service we promise is the service we deliver every day."

Proven Credible is an independent, third-party verification service that reviews and researches all of the testimonials submitted by a business before giving them the Proven Credible stamp of approval – their "Verified" check mark. "The thing that we really like about Proven Credible versus other, similar services is that all reviews submitted to them are checked by real people, human beings who make sure that the source and comments about every company are 100% true," said Mason.

Superior Notary Services has been in operation since 2000, at which time the firm launched one the first mobile notary signing services in the U.S. Since then the company has expanded to meet the growing demand for their convenient, professional services. The company recently moved to their new headquarters in St. Paul, Texas and has created and nationwide network of traveling notary signing agents. Their system, which is based on providing essential notary services that are convenient for everyone from individuals to professional clients, completely changed the landscape of the notary service industry.

Superior is now one of the industry leaders in mobile notary services, filling an important need in the business by eliminating the aggravation that is often involved in finding and scheduling a notary. Superior Notary gives their clients what they

want, where they want it, and when they want it. And now, with the approval of their client testimonials by Proven Credible, anyone using Superior Notary Services will know that they can count on the same level of professionalism and quality of service that is noted throughout their impressive company reviews.

About Superior Notary Services: Superior Notary Services, the St. Paul, Texas notary public firm, was established in 2000 as one of the first "mobile notary service" in the industry. Superior Notary Services offers corporate notary services that travel to the client's location at a time of their choosing. In doing so, Superior set the industry standard for convenience and efficiency. The traveling notary signing services provided by Superior Notary include, real estate mortgage closing documents, attorneys and interrogators statements, and structured settlement agreements.
