Released on = May 11, 2007, 12:32 am

Press Release Author = Online Media Technologies Ltd.

Industry = [Software](#)

Press Release Summary = LONDON, May 11, 2007 - Online Media Technologies Ltd., a developer of modern multimedia solutions marketed on video/audio software portal AVS4YOU.com, releases today Windows Vista compatible versions of all its current products.

Press Release Body = Following the development of Windows Vista Online Media Technologies delivers Windows Vista support to all its products. After a series of profound laboratory tests AVS4YOU.com features the update of the entire 27-tools package optimised now for smooth performance on Windows Vista. Due to general technical improvements AVS software prove to work stably under Windows Vista and enable owners of Windows Vista to complete video and audio tasks more efficiently.

Recently launched, AVS4YOU.com introduces an absolutely new Software-Flatrate scheme of getting software online. Those who buy any AVS4YOU tool, can use all AVS4YOU software, including even future titles released, for free, without limitations. AVS4YOU.com lists software for all common tasks with home video/audio management that actually saves time on online search for an appropriate tool.

Pricing and Availability

AVS4YOU software run under Windows 2000/XP/2003/Vista. A subscription to one AVS4YOU software gives the right to use any software from AVS4YOU tools package at your liking. There are two software subscription options available: 1 year subscription which costs \$29(USA) and an unlimited one which costs \$59 (USA). The only limitation of trial versions is a watermark or a sound logo that is put on output files.
