Press Release Summary = Reliable Telecom Supply, a telecommunications equipment provider and services company, received ISO 9001:2000 certification on April 17, 2007 from Quality Systems Registrars, Inc (QSR, Inc.).

Press Release Body = Reliable Telecom Supply, a telecommunications equipment provider and services company, received ISO 9001:2000 certification on April 17, 2007 from Quality Systems Registrars, Inc (QSR, Inc.). This standard represents an international consensus on good management practices with the aim of ensuring that a company can continually deliver products and services that meet the customers' quality requirements.

As part of this certification process, QSR, Inc. performed an on-site certification audit at the Dallas, Pa facility and worked closely with the team at Reliable Telecom Supply to determine and verify standards compliance. In order to ensure that the high level of standard set by the ISO is constantly being practiced after certification, Reliable Telecom Supply will be subject to surveillance audits of both documentation and processes under the ISO 9001 guidelines. These types of audits are common practice with this certification and only

strengthen the quality processes already in place at Reliable Telecom Supply.

"Achieving ISO 9000/2001 certification is a milestone for my company," said Rob Wesley, President and owner of Reliable Telecom Supply. "As we enter new markets; just saying we have a quality system is not enough. ISO 9000/2001 certification moves Reliable Telecom Supply, Inc into a privileged level of professionalism."
