Press Release Summary: Which? magazine has voted the Baxi Duo-tec Combi 28 HE boiler as its Best Buy

Press Release Body: UK boiler manufacturer **Baxi** is celebrating its success after its **Baxi Duo-tec Combi 28 HE boilers** was voted **Best Buy** by leading consumer magazine **Which?**

At a time when climate change, global warming and high fuel costs are constantly making headline news, [Baxi](#) is delighted that the **Baxi Duo-tec Combi 28 HE** has been recognised for its performance, efficiency and environmental credentials.

The **Baxi Duo-tec Combi 28 HE** (<http://www.baxi.co.uk/products/gas-boilers.html>) achieved 5-star ratings for efficiency, low NOx emissions (Nitrogen Oxide), features and installing, and 'good' ratings for power use and every day ease of

use. **Which?** described it as, "a great choice for flats and smaller houses".

Which? stated, "It's one of the few boilers we've tested which reaches the very highest efficiency standards, matching its claims to meet the A SEDBUK standard. As well as offering excellent efficiency, this boiler is reassuringly easy to use."

According to **Which? Best Buys**

- Are "highly efficient, user friendly boilers that won't let you down"
- Are "easy to use and programme, so shouldn't cause you any frustrations when you're trying to switch on in a cold spell"
- "Represent the very best combination of great efficiency, low emissions, ease of installation, servicing and helpful features"

The report includes reviews of 34 boilers from leading manufacturers including Alpha, Buderus, Glow-Worm, Halstead, Ideal, Saunier Duval, Vaillant and Worcester.

As well as the **Best Buys** and boiler reviews, the [Which? boiler report](#) contains plenty of information and advice to help consumers choose their boiler.

Notes to Editors:

About **Baxi** has been producing boiler heaters (<http://www.baxi.co.uk/products/index.html>) now for over a century and half. Now part of the **Baxi Group**, **Baxi** is widely regarded as one of Britain's best heating appliance companies. The company's comprehensive product range includes gas boilers, renewable energy products, cylinders, water heaters and commercial heating.

The **Baxi** brand has been through a rebranding process which was officially launched at the start of September. This will include a new revamped website. The website relaunch will be completed in two phases. The first phase will see the overhaul of the current site to incorporate the new brand guidelines. The fully completed Baxi website is due to go live in December 2007.
