Industry: [Small Business](#)

**Press Release Summary: After an initial trial period, THE Golf & Travel Club announces its official launch in the United States and Canada.**

Press Release Body: **The Golf & Travel Club** is announcing its formal launch in the United States and Canada. After an initial pre-launch test period, the company is ready to launch into full-scale operation with its golf and travel business. This is a truly unique program that will appeal to any person that wants to start a business for the first time, or to the seasoned business builder that wants to build a large business that will generate income for many years to come.

**Bobby Dudek, President of The Golf & Travel Club**, said, *"It's been reported that someone joins a home business program every 11 seconds. That's incredible, and shows people want to do something with their lives, but until now, there was never anything that really catered to golfers, travelers and entrepreneurs. We took the best aspect of franchising, direct sales and network marketing and created*

*an absolutely wonderful and unique program for the golf and travel industry. Not only do we provide fabulous products and trips, we offer people the opportunity to start their own business and to change their lives for the better."*

**The Golf & Travel Club** sets itself apart from other companies in that it has a good mix of both golf products and travel packages, a unique compensation plan that allows anyone to start with as little as \$79.95 and start earning income right away, and a training and support program second to none. With over 30 years of business development experience, Mr. Dudek understands the challenges of starting a business and is determined to help each and every member of the Club. *"Anyone that starts a business is always looking for leadership and support, and we understand that, and that's why our company philosophy was created around this concept. Everyone helps everyone and if you're not willing to do that, you aren't welcome,"* says Mr. Dudek.

The company is offering everyone its free report on Self Employment to help people determine whether running their own business is the right path for them. Mr. Dudek continues, *"If someone doesn't have the right skills or personality to be self employed, it probably doesn't make sense to start their own business. We help people find out more about themselves and whether starting a business is the right thing for them to do. Then, and only then, will we introduce the business to them. That's what makes us unique. We are only interested in people that we believe will succeed and are a good fit for our company. Unlike many other opportunities, we are not interested in them for just their money. It may sound odd, but that's how I want to grow my company."*

During the pre-launch, test period, the company attracted many golfers, travelers and business people to its unique concept. Many of those people have already joined **The Golf & Travel Club** and are already on their way to achieving tremendous growth and success.
