March 4, 2008 - Irvine, Calif. - Billionaires aren't born; they're self-made in many cases. But what are their secrets? How do they create wealth? In **Attorney James Burns'** new book, **The 3 Secret Pillars of Wealth: How to Crack your Wealth Code Using the Tools of the Self-Made**

Billionaires, he shares the tactics that anyone can put into action to create real wealth.

Those interested in learning these secrets and meeting Burns are invited to attend a special book signing on **Thursday, March 27, 2008.**

Time: 6:00 p.m. – 9:00 p.m.

**Where: 18201 Von Sognari International
Irvine, Calif. 92612 Karman Towers, Suite 200**

According to Burns, he learned his secrets from some of the wealthiest people of our time and from clients in his estate planning practice.

"I lived with the richest woman in the world and have worked with millionaires and billionaires for 18 years," explains Burns. "Now, I'm releasing the tools that three self-made billionaires have each used to become successful. These are the only tools anyone will ever need to create the wealth they desire."

Burns feels that creating wealth is not a privilege but a duty.

"Without building wealth, we don't have the freedom to live our lives to the fullest," says Burns. "We remain on the hamster wheel, always running to pay our bills, to keep up on our mortgage payments and care for our children. In today's economy, it is more important than ever to gain the knowledge and tools to build wealth. Our county comprises the largest population of aging individuals who are tapping into government benefits programs. Compounding the problem, our security costs continue to escalate as we are entrenched in two foreign conflicts simultaneously. Plus, we just bailed out borrowers in the largest loan debacle in history. Foreign countries came to our aide and want to be paid back in foreign currency, which only serves to compound interest."

Burns says these aren't the only reasons to open the doors to the vault that contains the secrets of building wealth.

"People need to know the secrets right now," says Burns. "With the changing of the presidential guard, taxes will be higher for those in the successful middle class. The average citizen simply can't afford NOT to be wealthy."
