

Firepow Software - How Firepow Has Changed The Face Of Blogging

Released on: July 27, 2008, 6:18 pm

Press Release Author: Colleen Slater

Industry: [Marketing](#)

Press Release Summary: Firepow blogging software has just been released by Andrew Hansen. Firepow software has the capacity to change the face of profitable blogging as we know it today. Here's why.

Press Release Body: Sydney, July 2008 - **Firepow** wordpress blogging software now makes it easier than ever to create a passive income as a "blogger". Blogging and setting up successful mini sites in a range of niches is one of the best ways to create a significant passive income online.

Colleen Slater should know. She's created a passive monthly income of \$8,000.00 per month as a niche blogger in just 18 months. This may not sound surprising to some people but Colleen's managed this in her spare time while working full-time and has now replaced her full-time income.

Colleen states, *"Becoming a niche blogger has been the best decision that I've ever made. Prior to the release of Firepow blogging software I've had to do a lot of the work myself. Firepow now makes it so much easier to just create, automate and duplicate. If I'd had access to the features of **Firepow** in the last 12 months I know my monthly income would have hit 5 figures by now."*

Don't underestimate the power of **Firepow**. **Firepow** software is multiple software applications in one. It's easy and fast to put into action.

Firstly, there's the **Firepow** blog installation program which will have a blog installed on your domain (or hosted at the Firepow Control Panel) with just a few mouse clicks (hassle-free WP installation).

Secondly, there's the innovate **Firepow** theme generator which allows you to modify themes exactly how you like it (get your themes looking just the way you like it).

Thirdly, there's the **Firepow** seo blogging component of the software. *"This is an extremely powerful feature,"* states Colleen. *"Once you've set up your blog **Firepow** then works hard behind the scenes pretty much on autopilot in a number of ways. First, to build links and traffic to your blog from popular social networks; second, to get traffic automatically for the search engines with high optimized blog content; third, to quickly and easily increase your blog's exposure by publicizing them on a large number of high ranking blogs."*

Fourthly, there's the **Firepow RSS** component of the software that adds fresh content to your site with an exclusive customized RSS plugin (you could expect to pay 100s for this feature alone) and allows you to quickly submit all your RSS feeds to the search engines fast for quick indexing.

Fifthly, there's the incredible selection of **Firepow plugins**. Not only will you get instant access and installation of around 40 of the best Wordpress plugins online but you'll also have access to 14 exclusive plugins only available through Andrew Hansen's blogging software that have been meticulously created to make your blogs more profitable and have you earning money faster than ever that you can install with the click of a button.

Sixthly, there's the ability to automate and task manage all of your blogs from just one Control Panel...Create, Automate and Duplicate.

Colleen appreciates that people may be a little unsure about how **Firepow** can benefit them. For this reason Colleen's giving you a free sneak peak into **Firepow** itself. Simply go to <http://www.60minuteaffiliate.com/sneak-peak-of-firepow-software.pdf> to see **Firepow** in action at no cost. (You'll also learn how to save 30 percent on **Firepow** for a limited time).

Colleen has also created an exclusive **Firepow** bonus package that is not available anywhere else online. If you order Firepow through her website you will get access to a bonus package worth thousands of dollars if purchased elsewhere online that will show you how to make your blogging with **Firepow** even more profitable.

Colleen will also teach you how to put **Firepow** in action fast (from niche selection to blog creation) - in under 2 hours in fact when you invest in **firepow** through her website.

To look inside **Firepow** now and to save 30 percent on Firepow software for a strictly limited time go straight to <http://www.60minuteaffiliate.com/sneak-peak-of-firepow-software.pdf> now before Andrew Hansen puts the price up of his phenomenal **Firepow** blogging software.
