

WSR Consulting Group, LLC Celebrates 20 Years of Pioneering and Leadership As Computer Expert Witnesses in Software Failure Projects and IP Infringement Litigation Matters.

Released on: July 22, 2008, 5:52 pm

Press Release Author: **Warren S. Reid**

Industry: [Law](#)

Press Release Summary: Our prime areas of expertise and main services are acting as consultants in IT Project Turnaround situations, and acting as testifying expert witnesses in the following arenas: computer system failure; software project failure; ERP implementation project/systems failure; internet systems and website failures; software intellectual property disputes; and high-technology valuation situations.

Press Release Body: Los Angeles, California, July 22, 2008 - **Warren S. Reid** founded **WSR Consulting Group, LLC (WSRcg)** in 1988, and since then the firm has grown to 15 expert witnesses, including ex-Big-6 Consulting Firm partners and managers, CIO's and an IT lawyer.

WSRcg team members have served as experts and expert witnesses in computer, software and Internet disputes and turnaround projects, large system/software project failure litigation, and software intellectual property (IP) litigation. They have been recognized and accepted as IT expert witnesses in U.S. arbitration hearings, state and federal courts, the U.S. Court of Federal Claims, and in Canada, Asia and Europe.

WSR Consulting Group, LLC experts have testified as expert witnesses where their engagement counsel represented: President William Clinton, Her Royal Majesty the Queen of England In right of Canada; Fortune 500 companies; the Malaysian Stock Exchange; renowned hospitals; worldwide restaurant chains and big box retailers; Big 4 consulting firms; ERP customers, vendors and system integrators.

Warren S. Reid, founder and Managing Director of WSR Consulting Group, in his previous career as a management and computer technology consultant and partner/manager at two of the world's largest consulting firms, was a principal author of one of the first large-scale Software Development Life Cycle (SDLC) methodologies, which evolved into "Method/1" and which is still used internationally by some of the world's largest companies. He was also one of a small team of consultants that helped to create and launch the Federal Energy Office for President Jimmy Carter in just 75 days, and managed and oversaw the testing and acceptance of California's Lotto Lottery games in just 100 days.

As quoted by **Ed Yourdon, CEO, NODRUOY Inc.**, February 21, 2007 on LinkedIn: *"Warren is one of the sharpest and most insightful of all the computer experts and management consultants I've known. He's got a broad range of experience, and doesn't pull any punches when he advises clients and senior executives how to get themselves out of the technical problems they've gotten into, and how to achieve competitive advantage in today's fast-moving global environment."*

The scope of the systems that **Warren S. Reid and/or WSR Consulting Group, LLC** systems experts have built and/or testified about cross multiple platforms and industries. WSRcg's industry specialties include: manufacturing and distribution; health care systems/HIPAA; retail & restaurant service; e-business and web 2.0; gaming and ticketing; automotive; government, military and law enforcement; higher-education; financial services; and software and high-technology.

Speaking about Warren S. Reid's work as an expert witness, **Richard Bernacchi, Esq.**, one of the pioneers of the computer law industry in the U.S. had this comment: *"Extremely thorough and organized, very articulate, and has a very credible courtroom presence"*.

Michael D. Scott, Esquire, Law Professor, and author of more than seven books on technology and the law comments: *"I have had the pleasure of working with Warren on two major system failure cases. He leaves no stone unturned in getting to the truth of what happened (and more importantly, what should have happened but didn't). His small but specialized team does better, faster and more thorough work than even the largest consulting firms."*

WSRcg's IT configuration and platform expertise includes: internet, social and web-based systems; legacy mainframes; 3-tiered host-client-server architectures; mobile and networked PCs and devices; multi-state, multi-level point-of-sale (POS) systems; robotic manufacturing, warehouse and distribution facilities; Enterprise Resource Planning (ERP) Systems including SAP, Oracle, PeopleSoft, JDEdwards, Retek, Cerner, IBM, and Microsoft ERP systems; software testing, project management and SDLC tools.

Warren Reid is the author of approximately 100 published business articles (many in peer-reviewed journals), and is quoted in numerous books, newspapers and magazines. He is the co-author with **Michael D. Scott, Esquire**, of a best-selling book: **"The Year 2000 Computer Crisis: Law, Business and Technology"**. He has been a keynote speaker and/or featured presenter at many prestigious international summits, congresses and conferences.
