Press Release Author: Roberta Groche

Industry: [Healthcare](#)

Press Release Summary: According to the latest alcohol statistics, 50 % of all driving fatalities in the U.S. involve alcohol, and every 30 minutes someone gets killed in an alcohol related traffic accident. These numbers are alarming, and unless action is taken, the death toll will continue to rise. Cliffside Malibu is an alcohol rehab center that guarantees satisfaction. They recognize that alcohol addiction is both a physical and psychological disease, affecting every individual in a different way. They do NOT believe that a "one size fits all" approach and a quick fix are the most appropriate solution to help an alcoholic. Only meticulously planned, and individually designed therapy sessions can lead to a permanent recovery.

Press Release Body: According to the latest alcohol statistics, 50 % of all driving fatalities in the U.S. involve alcohol, and every 30 minutes someone gets killed in an alcohol related traffic accident. These numbers are alarming, and unless action is taken, the death toll will continue to rise.

At **Cliffside Malibu**, a full service residential [addiction treatment](#) center in the Los Angeles area, a team of treatment experts are not waiting for the next devastating data to come in, but are ready to take action with the newest, most proven, alcohol rehab programs ever developed. They are highly qualified professionals, trained to support each individual, with customized programs, for just about any addiction that can ravage a person's life, including alcoholism.

Located north of scenic **Zuma Beach**, and overlooking the Pacific Ocean, this private, state of the art, luxurious sanctuary, features an [alcohol rehab center](#), as well as an extended care facility. Rehabilitation includes detox, group therapy if required, individual therapy, depression and anxiety treatments, and a number of alternative medicine options.

Alcoholism is a deeply-rooted psychological disease, with catastrophic effects. A proper cure requires more than just therapy. A successful [addiction treatment](#) has to encompass every aspect of the healing process, and that includes a good night's sleep in an elegantly furnished room, gourmet meals, transportation, laundry services, appointment scheduling, and internet access. Comfort is indeed paramount during recovery.

Cliffside Malibu is an alcohol rehab center that guarantees satisfaction. It prides itself on recognizing all the facets of alcohol addiction, and that it is both a physical and psychological disease, affecting every individual in a specific yet different way. They do NOT believe that a "one size fits all" alcohol rehab approach and a quick fix are the most appropriate solution to help an alcoholic. Only meticulously planned, and individually designed therapy sessions can lead to a permanent recovery.

The road well traveled by many alcohol abusers seems long and bumpy. It is a busy path, visited by people from all walks of life, including high-ranking politicians, well known artists, movie stars and famous musicians. These are people who are not ashamed to admit that they have a drinking problem, and after assessing their situation, were not afraid to seek help. They took action and enrolled in a renowned alcohol rehab center, where they were evaluated and treated by dedicated, experienced staff, and are treated with the upmost respect. These physicians, therapists, psychiatrist, psychologists, counselors and facilitators were available whenever they were needed and, to the best of their ability, made it their duty to assist each resident, on their own unique path to sobriety.

Becoming one of the world leaders in addiction treatment, did not happen overnight. Being an established alcohol rehab center is only part of the incomparable services **Cliffside Malibu** has to offer. As we all know, one addiction can lead to another. Some clients are admitted with multiple problems, which, for this particular treatment center, causes no problems. They have primary treatment options and/or extended care, as well as aftercare capabilities, cutting-edge treatment plans, and fully credentialed doctors, nurses, and therapists to ensure that their clients recover successfully, from whatever condition they are suffering.

Contrary to popular belief, alcohol rehab does not have to be a painful process. With the proper care, and residing in a private and secluded setting, the recovery process can actually be quite un-traumatic. Add recreational activities such as spa treatments, facials, manicures, swimming, hiking, and beach walks, and the option of private housing, where the client can enjoy all the conveniences from home, and you can be sure that a long-life victory is assured.
