

# Senko To Attend 2008 FTTH Conference And Expo

Released on: September 12, 2008, 12:51 pm

Press Release Author: Sarah Norton

Industry: [Telecommunications](#)

**Press Release Summary: SENKO debuts expanded line of fiber to the home solutions at the 2008 FTTH Conference and Expo.**

A history of service. A future of innovation

Press Release Body: Marlboro MA - **SENKO** has just introduced its expanded line of **fiber-to-the-home (FTTH) solutions**, a full line of components designed to meet the unique requirements of FTTH networks.

**SENKO's** Fiber to the Home products include WDM couplers, Attenuators, PLC splitter Modules, and SC-APC and LC connectors.

**WDM Couplers:** Manufactured using Filter WDM technology, SENKO's WDM Couplers provide very low insertion loss, low polarization dependent loss, and excellent environmental stability.

**Attenuators:** SENKO's Attenuators provide excellent optical characteristics, including Low Polarization Dependent Loss (PDL) and a stable, independent wavelength distribution.

**PLC Splitter Modules:** Manufactured with Plasma Chemical Vapor Deposition (P-CVD) technology and its patented fabrication process, SENKO's PLC Splitter Modules provide stable optical specifications. The module's silica on silica waveguide and optical fiber array are tested to Telcordia GR-1209 and GR-1221 standards.

**SC-APC Connectors:** Backed by SENKO's quality standards, SC-APC connectors are available in either a conical or step end face.

**LC Series:** SENKO's LC Series includes Standard LC, Behind The Wall (BTW), and Unibody Connectors, as well as LC Standard Adapters, LC Adapters With Sc Footprint, LC Hybrid Adapters, Terminators, and Attenuators.

**SENKO** will exhibit its extended portfolio of fiber optic passive devices in booth #710 at the **2008 FTTH Conference and Expo being held in Nashville, Tennessee; September 22-24th**. SENKO will also be showing their new line of cleaning and inspection kits as well as their XP Fit Plus, SENKO's solution to field installable connectors. Please stop by and visit for more information.

Demand for fiber technologies such as FTTH is on the rise, and the capacity to meet this demand and continuously add new services is creating enormous competitive pressures. Several communications companies are already selling FTTH technology, and many of them are integrating SENKO into their product offerings.
