

The Brand New Simplified Instant Income Plan Recently Released Was Designed Specifically To Assist Online Home Based Businesses To Become Effortless, Fun and Extremely Profitable For New Users

Released on: September 26, 2008, 7:15 am

Press Release Author: Richard Bassett

Industry: [Internet & Online](#)

Press Release Summary: A newly released Instant Income Plan has just made it much easier for new online home based businesses to succeed. The Instant Income Plan packages all of the intricate details of website development, autoresponders, customer service, pay-out and much more into a user-friendly parcel that shortens the learning curve for new users. This new exciting Instant Income Plan substantially increases income potential and greatly reduces the dropout failure rate. The user only needs to drive traffic to their site.

Press Release Body: Greenfield, Iowa September 25, 2008 – **Richard Bassett**, a new **Instant Income Plan** user, was extremely excited when he grabbed the opportunity to be among the first to get the program online. He was a wannabe online home based business nut that was struggling to make sense out of the many loops one must go through to become successful. After all, Bassett has big money dreams of becoming a 7 figure income guru like the biggies, and is determined to get there by using the Instant Income Plan.

The tasks that often times deter new Internet users are hidden from their view in the Instant Income Plan. A skillfully designed website and big money in the bank are the only things obvious to the user. Everything else is out-of-sight to the user. Follow-up messages are automatically sent to new customers, a personal email list is started and pay-out happens systematically. This is all done for the user. Basically,

all the new Internet user needs to do is select a domain name, drive traffic to their site and spend the money.

Darren Salkeld first introduced Bassett to the **Instant Income Plan** in September 2008. Bassett had been struggling for over a year in an attempt to develop a website and to start making his dream money. But the struggle was almost too much and he was about ready to drop out and declare a failure. Unfortunately that is what happens to all too many beginning internet users; they become overwhelmed with tons of information, sometime it is misleading or overstated...

Bassett stated, *"There is just so much to master, but I had such a tremendous desire to succeed that I was not willing to give up. I had a mind set that would not let me down. I have always wanted to be a millionaire and now I see that the Instant Income Plan has the exciting potential to make my dream come true."*

Bassett continued, *"This website, (<http://www.moneyanyone.com>), has given me access to several great products that are in significant demand right now. I am confident that doing business with Darren's creation is a giant step forward. The on site training that I have received from Darren and his team is worth every penny that I paid to have access to the Instant Income Plan."*

The **Instant Income Plan** comes with quality follow-up support and service from Salkeld and his team. That is why it is super for new online home based business entrepreneurs. You get live training and question and answer calls, unlimited access to training videos, audios, and step by step documents. And you get what all new internet users need, live phone support. This is the website that was put together for Bassett, (<http://www.moneyanyone.com>), when he joined the Instant Income Plan team.

Darren Salkeld is a leader and innovator of marketing systems. He is a Strategic Internet Marketer and behind the scenes consultant for several successful network marketing companies. He has assisted home based entrepreneurs to grow organizations to 12,000 members in just two short years. He has many outstanding credentials that well qualify him as a leader for new online home based business builders to follow. Bassett chose to hook up with Darren for success.
