**Press Release Summary: Mobile Awareness, LLC, releases VisionStat™ Portable, a new transportable wireless camera system which provides a safe and convenient solution for all types of towing and hitch applications.**

Press Release Body: [CLEVELAND, OH – October 7, 2008] - **Mobile Awareness, LLC**, a provider of leading-edge transportation safety products, today announced **VisionStat™ Portable**, a new transportable wireless camera system. **VisionStat™ Portable** provides a safe and convenient solution for all types of towing applications, visual security, temporary use for backing and observation of valuable cargo.

The **VisionStat™ Portable** camera system is cost-effective, easily installed, and allows the driver to back-up and align a towing vehicle using the removable, handheld monitor with a 2.4" LCD screen. The Night Vision enabled camera has a magnetic base to allow for flexible mounting

**"Mobile Awareness** recognizes that vehicle owners and businesses want flexible, effective and affordable camera systems that improve their vehicle safety environments," says **Brandon Stotsenburg, Director of Sales & Marketing at Mobile Awareness**. "Our **VisionStat™ Portable** color video system provides a transportable camera at a price which will allow RV and utility truck customers to safely back their vehicles, align them for hitching and monitor valuable cargo during transportation."

Stotsenburg concludes, ***"VisionStat™ Portable has a one-year warranty and provides a truly affordable and flexible color camera system for our customers who need a temporary system, but still want many of the safety benefits that they have come to expect from Mobile Awareness."***

Cleveland, Ohio based Mobile Awareness, LLC™ designs and markets leading-edge, affordable transportation safety products.
