According to many gifting leaders The Peoples Program is a True hybrid Cash Leveraging program. Several in The Peoples Program have received combined gifts exceeding \$20,000 in the last 14 days!

Because The Peoples Program has a "Zero-Qualifier" and does NOT require any new associates to "Pass-Up" their first gift like many other gifting programs such as Abundant Living Systems, Spirit of Wealth, TLC2008, and The Overnight Cash System many are participating in this hot new gifting program...The Peoples Program.

The People's Program is the first residual, hybrid gifting program of it's kind. With the unique leverage of the TPP "Lifetime Residual" Cash Flow Structure you can have multiple gifts rolling in from various sources and avenues. Such as:

1. Your Personal TPP Enrollments

Depending upon your initial TPP entry level, and for each and every new member you enroll into the program, you'll receive cash gifts from the \$150 Level to the \$10,000 Level IMMEDIATELY. Zero qualifier needed!

2. Residual Cash Gifts

Each member you personally enroll into the TPP program will also have ALL their personal enrollments send you "RESIDUAL" Cash Gifts depending on the Level.

3. Continuous Residual Cash Gifts

Whenever any of your in-direct referrals invites new members into TPP, and they decide to join at a higher level than your current member is presently at, the difference above and beyond your member's level will roll up to you or the next qualified person.

4. 100% Cash Credit System

The Peoples Program has created a revolutionary new concept that allows EVERYONE to benefit – learn more by visiting <http://CashCrazyToday.Com>

The Peoples Program Administrator fee is only \$50 per year and includes a complete website. Complete findings can be ordered from GMI.

In summary, cash gifting is legal, ethical and simply an activity, not a business. Just as parents and grandparents can give up to 12,000 USD to any one individual each year like kids and grandkids, this rule also applies to any individual. This "rule" has created a stir and a legal activity online where anyone can receive complete training and support in a professional team environment. Many participate part-time, some full time.

Usually, when things look too good to be true, they are. In this case, it is true. But better than that, folks can relax because it is fun legal. GMI just encourages participants to call them or get with a group or organization that offers ongoing support & mentoring, especially if they wish to market their new program on the internet.
