

# Hosting Resellers Get Exchange and SharePoint Turnkey Solution

Released on: January 9, 2009, 3:58 am

Press Release Author: Gabriella Sannino, Level 343

Industry: [Internet & Online](#)

## **Press Release Summary: Resellers can now Private or White Label Hosted Exchange 2007 and SharePoint Hosting with Apps4Rent's Best Price Plans**

Press Release Body: **Apps4Rent LLC**, a Microsoft Gold Certified Partner, and the leading provider of Microsoft Hosted Exchange, SharePoint hosting services and other on demand business applications, announced robust additions to their reseller program today. With the [Apps4Rent reseller plan](#), resellers receive premium services at value prices, delivered on a turnkey basis. Plans start at \$6.95/month for 1 GB Hosted Exchange 2007 mailbox with free ActiveSync, and \$8.95/month for SharePoint hosting.

Reselling **Apps4Rent** hosted applications, such as, SharePoint hosting and Microsoft Exchange Hosting with option to add hosted BlackBerry Enterprise Server (BES), allows the reseller to start offering commercial services in a short period. Within hours, resellers can have

private label or white label Hosted Exchange 2007 and Hosted SharePoint, all through a user-friendly, web-based control panel; based on Microsoft HMC 4.0, the control panel is full-featured and specifically designed for resellers.

Private label and white label solutions offered through Apps4Rent provide fully managed, branded opportunities through the reseller's website. **Apps4Rent** bills the reseller at value prices; the reseller chooses how much to bill their customers and which packages to offer, all under their own company name and brand. The reseller retains full control over packages, pricing and customers.

Along with branding capabilities, the reseller has a fully robust, reliable support package, with multi-lingual and multi-currency support, fully automated billing and multi-tiered access control at both company and administrative levels. Reselling, the turnkey solution, gives companies a complete package for their customers, while never having to worry about a facility, network, infrastructure, hardware or software.

Additional information about **Apps4Rent's** hosted applications can be found on their website at <http://www.apps4rent.com>.
