Lottery.co.uk Release Free Lottery App For iPhone And iPod Touch

Released on: June 8, 2009, 6:59 am
Author: **Lottery.co.uk**
Industry: Entertainment

Lottery.co.uk, the UK's favourite independent lottery website, has announced the launch of its new lottery application for the iPhone and iPod Touch.

The new free lottery application can be downloaded via the iTunes Apps Store and boasts a number of features that will be useful to anyone who plays the National Lottery.

Features include the delivery of the most recent Lottery numbers direct to the iPhone or iPod Touch, on which the App is installed. It doesn't matter where users are or what they are doing – they can now find out whether or not they have won a Lotto jackpot, or any other prize, without any fuss, within minutes of the draw taking place. All users have to do is select the 'Latest Lottery Result' option from the main menu and the information will be displayed instantly.

Another option is the 'Check My Ticket' function which allows any set of Lotto numbers to be checked automatically. Simply by entering their chosen lottery numbers, the App will show the user exactly how many of those numbers were matched in the last few draws. If they want to see how those same numbers fared in less recent draws, they can simply click the Next Page button and scroll through results for the last

six months. This should prove handy for anyone who happens to find an old ticket down the back of a sofa.

The new Lottery.co.uk App also features a 'Random Ticket Generator'. This will display a randomly generated selection of six numbers onto the iPhone or iPod Touch screen. These can then be used, or by simply clicking 'A New Random Ticket', an alternative entry can be generated.

The new App will even allow users to view Lotto results right back to when the National Lottery was launched in the UK in 1994. These archived results are categorised for easy navigation, with options to view the last six months or select any year from 2009 back to the start.

The new Lottery.co.uk App for iPhone and iPod Touch packs plenty of useful features, looks sleek and is available for free for anyone who downloads it from the iTunes Store, with an iPhone Help guide available on the Lottery.co.uk site.

"Lottery.co.uk has been providing a wealth of free lottery information for years, and we will continue to do so," said spokesman Sam Werren. "The development of this new application for the iPhone and iPod Touch is something that we are very excited about, and making it available for free means that lottery players can take even more control of their lottery participation for no additional outlay."

About   Lottery.co.uk
Lottery.co.uk is a truly independent lottery web site that provides lottery players with everything they need to get the most from their favourite hobby. Check the latest lottery results for all National Lottery games, read all about the latest lottery news stories, make use of an informative articles archive and much more.
