February 16, 2010- When workers handle hazardous waste or ship hazardous materials, training is not just a good idea, it's the law. According to the EPA, workers who handle hazardous waste must be trained annually, and the federal DOT requires that workers involved in the shipment of hazardous materials be trained at least every three years.

A graphic titled 'Your Compliance Credentials' on a light blue background. On the left is a large, stylized white 'E' logo. To its right are seven diamond-shaped hazard labels: 'CORROSIVE' (6), 'FLAMMABLE LIQUID' (3), 'INHALATION HAZARD' (6), 'RADIOACTIVE' (7), 'DANGEROUS' (4), 'EXPLOSIVE' (1), and 'OXIDIZER' (5.1). To the right of these labels is a block of text: 'Environmental Resource Center is an environmental, health, safety, and transportation consulting firm. Since 1981, we have served industry, academia, and federal and state government agencies. Our goal is to help you effectively comply with environmental, safety, and health regulations.'

Environmental Resource Center, the leading provider of environmental and safety training, will present the mandatory training in Nashville on March 2-4, 2010 at the Radisson Hotel, Nashville Airport. Classes begin at 8am and end at 5pm each day.

Hazardous Waste Management: The Complete Course will be taught on March 2 and 3.

DOT Hazardous Materials Training: The Complete Course will be taught on March 4 at the same location.

Registration for the training is available by calling 800-537-2372 or at <http://www.ercweb.com/classes>.

Now in its 29th year, Environmental Resource Center trains not only thousands of industry personnel every year, the company also trains personnel from most of the state and federal agencies that enforce the regulations.
