

# Right Casino Media Makes Further Grounds in the Live Gaming Industry

Released on: June 10, 2011, 4:59 pm

Author: [Right Casino Media](#)

Industry: [Internet & Online](#), [Entertainment](#)

Right Casino Media, a reputable online gaming portal provider, has today announced the launch of two new websites directed towards the live dealer casino and in-play betting niches.

Established UK online gambling portal operator Right Casino Media has made public the launch of two brand new e-gaming websites, [LiveGambling.co.uk](#) and [LiveBetting.co.uk](#), both targeted to enhance player knowledge and experience in real time gambling markets; including live in-play betting and live dealer casino insights.

The first of these websites, [LiveBetting.co.uk](#) solely focuses on the rapidly expanding in-play betting market made popular by popular betting provider Bet365. The site provides independent bookmaker reviews, betting guides as well as exclusive bonuses negotiated with operators.

The second site, [LiveGambling.co.uk](#), captures a larger portion of the market due to the availability that the broadness the domain name lends. This focuses on in play-betting, live dealer casino operators as well as [live bingo](#) providers. As with [LiveBetting.co.uk](#), both independent reviews and exclusive bonuses are made available only to the Right Casino Media Network.

Michael Charalambous, Managing Director of Right Casino Media commented: "The online gambling industry has developed in ways that 5 years ago would have seemed impossible, because of this the emphasis on real time and live gaming is higher than ever. Right Casino Media endeavours to be at the forefront of this market and the recent launch of our 2 newest websites moves us even closer to this goal."
