Celerant Ranks Among America's Fastest Growing Private Companies of 2012

Staten Island, NY, October 24, 2012, 4:53 am -- [/EPR NETWORK/](#) -- Celerant Technology Corp has ranked on the Inc 5000 for a fifth consecutive year, establishing the advanced retail software company as a member of the Inc. 5000 Honor Roll. For more than 30 years, Inc. has celebrated the fastest-growing private companies in America and Celerant Technology has once again been included.

"To be honored this year is a particularly notable achievement. To rank among the 2012 Inc. 5000, your company had to thrive through three of the toughest years this economy has seen in living memory. Your success in such time is eloquent testimony to your team's creativity, resilience, and tenacity," Eric Schurenberg, Editor in Chief of Inc. magazine, said of Celerant Technology's achievement.

Celerant Command Retail is an advanced retail management system, which works in real-time, integrating the point of sale on the front end, as well as back end functions such as inventory management, warehouse, distribution, allocation, advanced reporting and multichannel E-Commerce. Recently, Celerant has expanded its offerings to include a mobile suite of applications that maintain a retail enterprise, allowing retailers to use Celerant away from the POS and back office.

"We are again proud to have been recognized five years in a row on the Inc 5000 list" said Ian Goldman, president and CEO of Celerant. "It is a great accomplishment for us. Celerant continues to grow because our team is dedicated to providing exceptional products and services to our clients. Making the Inc. 5000 Honor Roll is a testament to our progress and technical advancement."

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on Inc.com. Celerant Technology's ranking on the Inc. 5000 is a noteworthy accomplishment that demonstrates the steady growth of the company. The consecutive placement further recognizes Celerant's status as a leader in the retail software industry.

About Celerant Technology

Celerant's Command Retail is an advanced real-time retail management system, which manages all areas of retail including POS, Inventory Management, Warehouse, Distribution Center, Allocation, Multi-Channel/E-Commerce/Kiosk, Mobile Commerce, Data Mining, and Back-office, in a single, integrated system. Our advantage is the flexibility of our Java platform, allowing Celerant professionals to conduct cost-effective analysis and adaptation based on the individual needs of each retailer. The result is a better system that meets the needs of retail businesses and gives them the tools to take Command of their success.
