October 19, 2012, 3:59 pm -- /[EPR NETWORK](#)/ -- An increasing amount of players at [Royal Vegas](#) are using EcoCard to manage their [online gambling](#) funds. This trend is seen not only in regular, loyal players, but also in a growing number of players who are new to the casino.

As people gravitate towards a more digital lifestyle, the use of so-called WebWallets in general is increasing, and EcoCard is by far one of the more popular deposit and withdrawal options. This is for a number of reasons.

Firstly, new players are rewarded for using EcoCard to make their first deposit – they will be able to claim an additional deposit match bonus, over and above their new player bonus of 1,200. This offer is a clear reason for the amount of new players depositing.

However, existing players continue to use EcoCard due to its ease-of-use, low-fee structure, and the exceptional technological procedures in place to protect the safety of all transactions a player makes.

The safety of players' personal information and transactional information is of utmost importance to [Royal Casino](#), and as such, it is considered the casino's top priority. EcoCard makes

use of 128-bit digital encryption technology of the highest standard, and is trusted by thousands of people worldwide for any of their online banking transactions.
