## **Royal Albert Hall set to host exclusive world premiere of the new James Bond film**

October 10, 2012, 11:48 am -- [/EPR NETWORK/](#) -- Tuesday 23rd October sees the arrival of one of the most anticipated movies of the year, as the new James Bond thriller, Skyfall, marks its arrival on the silver screen with a spectacular premiere at the Royal Albert Hall.

Eschewing the usual Leicester Square locations for its world premiere, the event, which will kick off in the early evening with red carpet events and an anticipated appearance from the royals, has chosen one of London's most historic and upper class venues for its location. Just in keeping with the stiff-upper lip and Martinis of the smart spies.

In celebration of the announcement, HotelMap.com, one of London's leading interactive hotel finders, has located some excellent deals on hotels within walking distance of the venue for fans and lucky attendees.

The website has sourced several [hotels near Hyde Park](#) which provide both a wonderful view and easy access to the Royal Albert Hall, without enduring public transport or taxis (very busy in this area). Whilst tickets to this sought-after event are like gold-dust, there will be thousands of fans at the red carpet event to celebrate.

A couple can stay at the 4 star NH Harrington Hall, just a stone's throw down the street from the venue, for £153 on the night of the 23rd – a 49% discount on the regular rate for a double room.

Bond fans who wish to enjoy a serious taste of luxury can live it up at the 5-star Egerton House Hotel, a ten minute walk from the Royal Albert Hall, for £350 for a night in this decadent town house venue. Alternatively, The Rembrandt, just down the road, is on offer for £163 for a deluxe double room.
