October 12, 2012, 2:06 pm -- /[EPR NETWORK](#)/ -- It's creature week at Royal Vegas [Australia Casino](#): four animal-themed games have made it onto the Hot List this week.

They say dogs are man's best friends, but this week, they're especially good for online casino players. The Spike's Nite Out [online pokies](#) is one of the hot games at Royal Vegas [Casinos Online](#) this week, but other animals are hot on Spike's tail.

The hot games at the online casino are the ones that are most popular for that week, getting the most player action, and paying out the most in winnings. Naturally, this list varies from week to week, but players who catch the games while they are hot could see a boost in their casino winnings.

Some weeks, themes emerge completely randomly. This week, animals rule, with Spike's Nite Out, Money Mad Monkey, Zany Zebra and Golden Goose Totem Treasure making it onto the Hot List. Other games on the list include Power Spins – Atomic 8s, Alaxe in Zombieland and Santa's Wild Ride.

Cold games, on the other hand, are games that haven't been played as much, or haven't paid out in a while – which could mean they are ready to increase the heat. Cold games at Royal

Vegas this week include Great Griffin, Hot Ink, Love Potion, Jewels of the Orient, The Adventures of Galactic Gopher, Lucky Eggsplorer and Prime Property.

This week's cold game could be next week's hot one! It doesn't take much for Golden Goose to trade positions with Lucky Eggsplorer, and a stroke of luck and some big wins could see a switch in position. Players who would like to try their hand at heating up the reels can find all these games and more at Royal Vegas.
