December 19, 2012, 10:58 am -- /[EPR NETWORK](#)/ -- There's never been a better time to buy a stylish and feature-packed Lenovo laptop computer than now, because for a limited period, every one sold by DABS.com comes with an extra gift in time for Christmas – cashback of up to £75.

While stocks last, if you buy one of the [Lenovo laptops](#) or notebooks from this top manufacturer's G580 or Z580 laptops, or Z400 slimbooks, you'll get at least £50, but up to £75 back in your pocket to spend as you please. And with the range's already great-value prices starting from under £330, that means you can treat someone you love – or even yourself – to a brand new, highly-specified and fully-featured portable computer for a great price.

The [Lenovo G580](#) can be bought with between 4GB and a massive 8GB of RAM and between 320GB and 1TB of internal storage. Operating on the latest Windows Home 8 Premium system, every one has Bluetooth connectivity, stereo speakers and integrated webcam and card reader to let you do all your computing tasks on the move.

The Z580, meanwhile, is powered by the latest-generation Intel processors, and has an in-built DVD read-write drive, along with Dolby Home Theatre audio sound and yet more massive storage capacity.

But if you're after the slimmest, slinkiest machine around, try a Lenovo S400 slimbook. It's a super-slim 22mm thick, yet packs in a 14-inch HD display, 4GB of RAM, face-recognition technology for ultra-secure logging in to your computer, and a battery which will give up to

five hours' continuous use, it's a machine designed for those who carry their lives around with them.

Michelle Helme of DABS.com said: "At a time of year when money can be tight, it can be hard to find great savings on the most in-demand gifts.

"But here at DABS.com, we think this Lenovo cashback deal is a timely and attractive offer which will encourage lots of people to act quickly to upgrade their existing portable computers.

"As we only have limited stocks of all three models available on this deal, don't delay placing your order to be sure to qualify for the extra savings."

Find out more about [Lenovo Cashback at Dabs.com](#) by visiting the page, where you will see the full range of models and funky colours available.
