December 11, 2012, 9:49 am -- [/EPR NETWORK/](#) -- It's a jungle out there, so if you need to carry a laptop with you for your work, you'll need a model that can cope with the knocks and bumps of daily life.

In short, you need one of the [Samsung laptops](#), namely a Samsung Series 9. Cased in duralumin, a lighter version of aluminium which is nevertheless twice its strength, this range of versatile and highly-specified laptops is now available from [BTshop.com](#), with prices starting at just over £930.

You'd expect a lot of laptop for that kind of money, and that's just what you get with the Series 9 models. With a 13.3-inch display, 4Gb of memory, and up to 128Gb hard disk, all models from the range which we're now offering are powered by the latest Intel i5 and i7 processors for fast and reliable performance. Why not take a look at the [Samsung Series 9 900X](#)?

To make the most of your Samsung Series 9, you can also buy a full suite of Microsoft Office 2010 programmes at the same time, from as little as £83.

Caroline Hodgson of BT Shop, said: "The Series 9 is designed with mobility and durability in mind, with its tough yet light duralumin casing, giving it a minimalist look that's both simple and sophisticated.

"The three models we carry are impossibly thin, with a never-before-seen design which nevertheless houses some very impressive features,

including a backlit keyboard and bright screen which means you can work in all conditions."

The models also come with Ethernet and Bluetooth 4.0 in addition to a standard wireless connection, meaning that you can stay connected wherever you roam.

And all these features are packed into a machine which weighs in at between 1.16 and 1.6 kilos – between 2½ and 3½ lbs – so you can roam as far as you like with your Samsung Series 9 in tow!

Take a look at the [laptops from BT Shop](#) today to see these impressive machines, and you're sure to be impressed by how much capability is packed into the Samsung Series 9 models' tiny yet tough frame.
