January 16, 2013, 7:37 am -- [/EPR NETWORK/](#) -- Shoppers looking to pick up bargains from Dabs can rest assured their orders will arrive swiftly - as the online electronics retailer has linked up with Royal Mail and UPS to provide courier services.

After listening carefully to feedback over the last few months, Dabs has decided that establishing new partnerships with Royal Mail and UPS will enable us to ensure that orders reach customers quickly and safely.

"Royal Mail and UPS have well-deserved reputations for reliable parcel delivery, so when it came to choosing new couriers, we had no qualms about selecting them," said Michelle Helme at Dabs. "We go out of our way to ensure that our customers get the standard of service they've come to expect from us, and both Royal Mail and UPS share our vision - so we're delighted to have them on board."

Dabs customers can also keep tabs on the progress of their orders by tracking them online. When you place an order with Dabs, you'll receive an email to tell you when your order is despatched and which courier is handling it.

In addition, the email will tell you when you can expect to receive the order, and it'll also contain a consignment number which for most deliveries will let you track the delivery online. This should help provide you with valuable peace of mind that your order will reach you in good time.

What's more, with a whole host of amazing deals to choose from on a whole host of items - ranging from [tablet PCs](#) to smartphones, [PC](#)

monitors and much more besides, even new releases like the Razer Sabertooth Controller from Dabs.com! - you're sure to find the right device for you at Dabs.

To find out more about the great deals we have to offer and how to make as well as manage any orders, simply visit our website at Dabs.com.
