**W2 and 1099 preparing software, ezW2, was updated with more user-friendly graphic interface with the new form level help buttons for startups. Trial version is available at [www.halfpricesoft.com](http://www.halfpricesoft.com)**

January 18, 2013, 12:25 pm -- [/EPR NETWORK/](#) -- Preparing and printing W2 Forms should not be headache for small business owners this 2013 tax season. Developers at Halfpricesoft.com have released the new ezW2 software which can save time and money in tax reporting. Which will lead to increased productivity and lower costs in preparing W2 and 1099 tax forms.

“Small business owners should be spending their time growing their businesses, not learning software or preparing tax forms by hand,” said Halfpricesoft.com founder Dr. Ge. “We created ezW2 to make that possible. Customers can start running W2 and 1099 as quickly as the software is installed - no learning curve, no wasted time.”

The ease and simplicity of this software takes the guesswork out of preparing, printing and e-filing forms W2, W3, 1099-misc and 1096 for users with little to no accounting background.

New users can download this W2 and 1099 application online at <http://www.halfpricesoft.com/w2-software-free-download.asp> and sample the software without charge or obligation, allowing them to thoroughly test drive ezW2 before purchasing. The trial version will print the watermarks on forms. Users can purchase the license key to remove it.

The updated and user-friendly software includes the following features:

- ezW2's straightforward user interface minimizes the learning curve
- It saves users money by printing the SSA-approved W-2 and W-3 forms on white paper
- It also prints 1099 MISC recipient copies on white paper.
- It helps users go green by generating w2 and 1099 PDF forms for recipients.
- It can generate IRS and SSA E-File (Electronic Filing) submissions for W-2 and 1099-MISC forms

New purchasers can confirm that ezW2 meets their needs by trying the software, risk free before purchasing. To start the test drive, please visit: [http://www.halfpricesoft.com/w2\\_software.asp](http://www.halfpricesoft.com/w2_software.asp)
