January 18, 2013, 7:54 am -- /[EPR NETWORK](#)/ -- [Live Roulette Online UK](#) has been available to play for the past 4-5 years now, thanks to the evolution of technology and without fail has proven to become one of the best forms of gambling.

With dozens of casinos now offering roulette live, such as Bet365 Casino, Coral Casino & more - the gambling addicts selection of where to play is becoming bigger and bigger every month. No longer are the days where a player has to take a trip down to their local casino just to get that buzz from being dealt by a live dealer, they have it all in front of their very own computer screen - even television!

According to [LiveRouletteOnlineUK.com](#), online search has risen dramatically over the past few years and player research has shown that they enjoy and spend more when playing live roulette online with a live dealer & chat function. Why? The answer is simple, because they can gloat at a lady or man, and chat to other players in the current game too, you could also say it's a form of socializing for them. That involves a lot of other small stuff around the game to, such as asking your friends to join the table, or getting to know new people!

Joe Write, Head of LiveRouletteOnlineUK.com, says " RNG gambling is slowly becoming a thing of the past, our traffic proves that players bounce rate when playing an online roulette game is nearly up to 19% more than when playing a live dealer roulette game. It shows that players are more

entertained and like to spend much more money – which is great of course.”

“What Live Roulette Online UK tries to do is specifically cut apart the two versions of games so that players understand exactly what they are in for, and with a full guide on both RNG and Live Roulette we are sure our visitors get the exact point.”

LiveRouletteOnlineUK.com is an online review portal for live roulette online. Ran by Joe Write, he wishes to explore the online gambling affiliate world to see what he can conquer.
