February 04, 2013, 7:37 am -- [/EPR NETWORK/](#) -- As winter tightens its grip in Derby and people dream of escapes to warmer climes, an independent travel agent has revealed the top ten destinations where locals plan to head this summer.

Spanish and Greek Mediterranean islands feature in the flurry of bookings at the cooptravel.co.uk branch run by The Midcounties [Co op Travel](#) in Derby's Westfield Centre, with Orlando in the USA and Mexico also proving popular.

January is a traditionally busy period for the travel trade as people fed up of the winter blues want something to look forward to and are keen to book their summer breaks.

In Derby the top ten summer holiday destinations booked this month are:

- Majorca
- Orlando
- Menorca
- Lanzarote
- Zante
- Cyprus
- Cancun (Mexico)
- Dalaman (Turkey)
- Costa Dorada

Fuerteventura

Branch manager Adam Deane said: "With the worst of the winter weather and January blues to contend with, it's not surprising that people want something to lift their spirits. Booking a summer holiday to somewhere warm and sunny fits the bill.

"Despite household budgets being under pressure, at Midcounties we are seeing family holiday sales slightly up on last year with May departures being particularly popular this summer.

"We have also seen an increase in all-inclusive breaks which helps holidaymakers to plan their spending carefully."

Travel industry statistics show the economic woes of Greece have not put tourists off and the Greek islands have overtaken sales to Eastern Mediterranean rival Turkey this summer. Holidays to Zante have been especially popular.

Despite the wider choice of destinations around the world for summer holidays, Spain remains a firm favourite and around one third of package holidays are taken there. Further afield Midcounties is also seeing a lot of interest in Cancun in Mexico.

"For those who can't get enough of the snow, there is still time to take a winter sports holiday this season and we are happy to advise and book those breaks too," added Adam.
