March 21, 2013, 7:59 am -- [/EPR NETWORK/](#) -- Tots to Travel released their Family Holidays video on YouTube on the 5th of January 2013, and in just over 2 months it is already nearly reached 10,000 views.

Tots to Travel is a travel company specialising in [family holidays](#). The team take every care possible to visit and fully vet each and every holiday home on their books to ensure that they are suitable and safe for children under the age of five.

Tots to Travel was launched in 2006 after mother of three, Wendy Shand's two year old son fell into an unenclosed swimming pool during a holiday abroad in 2005. "We were so frustrated by the lack of advice and information surrounding family friendly and safe accommodation and what facilities each location had or didn't have. We knew that we weren't the only parents finding this an issue, so we set up Tots to Travel to answer parents' most pressing questions." says Wendy.

As their YouTube video explains, Tots to Travel check every single holiday property for safety, quality and local facilities and support within the area. "Our aim is to take out the stress and worry that comes with booking [family holidays](#). Tots to Travel find solutions to the

common frustrations that mums and dads face when it comes to planning, booking and going on holiday with young children.” explains Wendy.

To find these solutions, Tots to Travel have a dedicated team of mums who are specifically trained using a system developed with the Child Accident Prevention Trust to visit and approve holiday homes and ensure they are all safe and child friendly.

“We want our families to have all of the information they need to be sure that their family will have a safe and highly enjoyable holiday. Our website has a wealth of information on our holiday properties, such as where the nearest supermarket is and how far away the beach is.” says Wendy. “Also, all of our holiday homes come with a Tots to Travel kit guarantee.” This means that all of the essential things that small children need will be waiting for them at their accommodation. “This includes items such as pool barriers, a high chair, baby and child cutlery, black out blinds, night light, everything that a parent would usually be struggling to fit into their suitcase.”

Tots to Travel have a variety of family holidays and accommodation’s to fit every family’s ideal holiday. “We have over 400 properties on our books, including cottages, villas with pools, chateaux’s...” says Wendy. Their Family Travel Experts take into account all of the clients requirements and needs and will work to match them up with their dream family holiday destination and accommodation.

“We know that our families aren’t after a package holiday sold to them by a sales rep. They want something bespoke that suits their family’s requirements and aren’t given that ‘one size fits all’ tour operator approach. We have rural locations, beach side properties, somewhere to holiday with other families. We really listen to what our families want.”
