March 04, 2013, 6:47 am -- /[EPR NETWORK](#)/ -- Kershaw Doors Ltd who are a very well established timber door supplier since 1999 have extended their contemporary styled Mega Oak door range to include a high quality external door version which includes both a solid and glazed option. This new addition to the range was developed during 2012 released at the end of that year and is now on a special release price for 2013.

The Mega Oak exterior door specification surpasses many of it's counterparts in the industry yet is offered at a very reasonable price of £281.69 for the solid version and £364.44 for the glazed option. Both doors are available in 2 popular sizes of 762mm x 1981mm and 838mm x 1981mm.

The Mega is constructed using a laminated Maple and Beech core, has 18mm Solid Oak edges and a superior 3mm thick Oak facing. The Mega 3V glazed option has the same specification as the solid door with the addition of 3 x 24mm Frosted glass vision panel (Low E Argon) units.

The doors are supplied boxed and ready to finish. In addition to the standard sized Oak Mega, [Kershaws Doors](#) have

extended the range further to include both a solid and glazed side panel, offering versatility when creating grand entrance sets to your chosen design function.

The Mega solid panel 610mm x 1981mm is a substantial width to compliment either door and the Mega V1 glazed panel is 457 x 1981mm featuring a doubled glazed vertical panel of clear glass. These panels are to the same construction standard as the regular Mega Oak doors. See Kershaws Doors Ltd website at www.1doors.co.uk to order these special offer doors or view the vast range of timber doors available. In addition Kershaws Doors Ltd are able to offer some styles as Made to Measure options. For [helpful door information](#) visit Kershaws Blog at <http://www.1doors.co.uk/blog/>
