Fountain Valley, CA, April 16, 2013, 11:54 am -- [/EPR NETWORK/](#) -- CAM Commerce Solutions, announced that it has released the newest version of their RetailStar Software product. Customers using this new version have stated, "We love the new purchasing and receiving module, enjoy that the software is more user-friendly, and the system operates fast and more efficient." Bob from Kreston's said, "We upgraded in October right before the holidays. Everyone in Support, Programming and our sales representative, Dina; gave us exceptional service making the transition from CAM to STAR as smooth as possible."

"At CAM Commerce Solutions, we are dedicated to continually improving the resources for which retailers can purchase and use trusted POS solutions that will help them do business better," said Sherrie Holliday of CAM Commerce Solutions. "By placing our focus on our customers' needs, it builds a trusted partnership."

In addition, the iStar and iCelerant eCommerce platforms have been refreshed to meet the growing needs of retailers who want to expand their customer base and increase revenue. "We strive to provide the best of both worlds. A fully integrated, socially connected, promotions driven Enterprise level eCommerce site, which reduces the labor and system maintenance cost and allows you to compete in your market with the most up to date e-commerce features." -Zeke Hamdani, Celerant Technology

Since the purchase of CAM Commerce Solutions by Celerant Technology Corp., our software programs have been revitalized. Celerant Technology's acquisition of CAM brings to the table 10 years

of reputable experience. Regardless of the size of your business, we have a solution for you!
