Oslo, Norway, April 23, 2013, 7:00 am -- [/EPR NETWORK/](#) -- With mortgage rates at an all-time low, more and more people are looking to not only buy homes but also to refinance existing mortgages in order to lower their monthly payments.

Norway is just one of the countries in which refinancing has become popular in the last few years.

Refinancing a mortgage can be a long and complicated process but the [refinansiering.no.com](#) website hopes to make this process easy for customers by providing a hub full of information about refinancing options in the Norwegian market.

The website offers all sorts of information including a blog full of hot topics about mortgage refinancing.

[Refinansiering.no.com](#) not only focuses on mortgage refinancing but also on refinancing of high-interest credit cards and other high-rate loans.

All the information crucial to any refinancing topic is available at this site.

“Our goal is to provide consumers with everything that they need to know about refinancing a mortgage” states Peder Wilhelmsen, the writer for [refinansiering.no.com](#).

“Refinancing is something that more people should take advantage of, yet many people think that it requires too much time and don't know the basics”.

At refinansiering.no.com we give potential refinancees everything they need to know before starting the refinancing process.”

[Refinansiering](http://refinansiering.no.com) has recently expanded its attraction to customers by offering a range of informative videos about the refinancing process and requirements.

The company will also refer borrowers to the best financial institutions for their particular situation.

Those looking for refinancing information about mortgages may find the following article valuable as a starting part in the process:
