May 15, 2013, 6:05 am -- /[EPR NETWORK](#)/ -- Healthcare software solutions specialist continues its international expansion with the establishment of a wholly-owned subsidiary in the United States. The new entity will focus on driving adoption of Napier's suite of solutions across the healthcare spectrum, including general and specialty hospitals, clinics, laboratories and blood banks.

Singapore, May 16, 2013- Napier Healthcare Solutions ([www.napierhealthcare.com](http://www.napierhealthcare.com)), a leading healthcare software provider, is pleased to announce that it has set up a wholly-owned subsidiary in the United States, Napier Healthcare Solutions, Inc.

To be based out of New Jersey, the six-member US team will be headed by Manish Mehta, an industry veteran, who will be taking charge as General Manager for the services business across America. The US entity will focus on customer acquisition across the United States and other markets in North America.

"Setting up of US operations is part of our two-pronged geographical expansion strategy, wherein we are aggressively growing our reach across emerging markets such as Africa and also establishing our footprint in developed markets such as the United States," said Karthik Tirupathi, CEO of Napier Healthcare. "This is an important milestone in

our goal to be a global provider of leading-edge software solutions for the healthcare sector."

Targeting the US market closely follows the roll-out of Napier's next-generation fully mobile-enabled platform Napier EHRm. This open-source based platform provides hospitals and other healthcare providers scalability, flexibility, ability to integrate with 3rd party systems and lower their total cost of ownership (TCO).

"With the new enhanced mobile platform, we are confident of offering healthcare providers in the US with a suite of solutions suitable for their diverse requirements. We believe it will be an important differentiator," adds Karthik.
