July 05, 2013, 11:44 pm -- /[EPR NETWORK](#)/ -- Classic games make a comeback on the Winners Wall at [Platinum Play Online Casino](#) this week as the top winner walks away with \$50,000 on Thunderstruck II.

Myth and legend ruled the Winners Wall at Platinum Play Online Casino last week, if the themes of the top casino games online are anything to go by. Norse mythology worked well for Marco P on 26 June, seeing him walk away with \$50,003.05 in winnings from Thunderstruck II on 26 June at sister Fortune lounge casino, Royal Vegas. The legends of Arthurian times were lucky for Elbio Marco R, who conjured up a \$33,130 win on the Avalon slot game on 1 July.

Not all the games that featured on the Winners Wall had esoteric themes, though. Jörg T scored a \$49,817.21 bundle of loot on the Break da Bank Again slot game. Kuai ieong S won \$30,171.18 on the Burning Desire slot game on 27 June.

Elbio Marco R may have done well on Avalon, but he did even better playing at a table game. He played live roulette on 26 and 30 June and 1 July, netting nearly \$90,000 in those three days. Combined with his \$33,000 win on Avalon, that's a very respectable winning streak!

Secure online casino software used by Platinum Play means ease of mind and comfortable playing for all players. New players are presented with \$1500 in free casino credits upon sign up to use up on a variety of slots, from basic fruit slots, to video slots with elaborate themes. The casino also offers a selection of table games, including blackjack, baccarat and roulette, as well as a number of video slot games.
