### **About the motion picture**

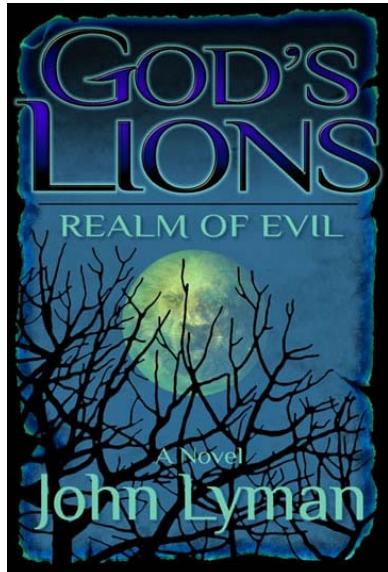

Peter G Kuys, Chairman of Kuys Entertainment adds: "When earlier this year we became involved in representing John and his "God's Lions" series, I had become spellbound by his storytelling and decided that this was serious motion picture material. Reaching out to my friend (current editor on The Mentalist) Christopher Cibelli drew a similar passionate response and we set out to get a screenplay written and find other warriors for this project with great results."

"This is a story that needs to be told on the screen" says Kuys. [kuysleis.com/credits](http://kuysleis.com/credits)
