Industry: [Retail](#)

January 09, 2014 -- /[EPR NETWORK](#)/ -- CozyCatFurniture.com has announced new line cat condos and cat perches that have durable and fun design and will entertain cats for hours. It is a wide selection of quality furniture for all feline friends. They will be provided for the lowest price on the internet and feature free shipping and no sales tax on purchase.

No matter how hard the cat owners try, they will not train cats to stop scratching, so we recommend taking a cat scratching furniture or its own scratching post for it to scratch.

The new multi-level cat perches will give cats fun and fuzzy places to play and the sisal posts will provide an outlet for climbing and scratching to prevent damage to the home furniture. The furniture are stable, making it ideal for even the most boisterous of cats.

The new [unique cat condos](#) are perfect for cats and feature: multi-level construction; faux fur covering material, which has same quality as the regular carpet, but it is thinner; strong particle boards; every pole is covered with sisal rope. The sisal rope is strong enough for lasting years; construction is made from separate parts, which are bolted or screwed together;

easily cleaning with a vacuum cleaner or mild detergent; assembles in minutes. All needed tools and instructions are included; excellent choice for one-cat or multiple-cat households

About Us: Cozy Cat Furniture store is a secure gateway for all needs for great modern cat furniture. Our mission is simply to be the definitive online story in providing pets with the highest quality and most uniquely designed furniture, houses and beds available anywhere in the USA.
