

Regenexx Announces the Publication of “Orthopedics 2.0 – How Regenerative Medicine and Interventional Orthopedics will Change Everything” on Amazon Kindle

Released on: February 02, 2015, 4:33 am (EST)

Author: **Dr. Chris Centeno**

Industry: [Biotech](#), [Healthcare](#)

Broomfield, CO, February 02, 2015 -- /[EPR NETWORK](#)/ -- With more than 40,000 downloads, “[Orthopedics 2.0 – How Regenerative Medicine and Interventional Orthopedics will Change Everything](#)” is now available on Amazon Kindle. The third edition of the top-selling e-book is being offered as a free download through Jan. 6, 2015.

Written by Dr. Chris Centeno, this e-book delves into the human musculoskeletal system and explains how everything works together in concert to maintain our physical wellbeing. When a single component in this chain is damaged, it can lead to a cascade of joint, spine and connective tissue problems, resulting in chronic pain.

Using the Regenexx SANS approach, Orthopedics 2.0 walks you through a series of tests and exercises that you can do on your own to better understand where your own body is struggling to maintain proper stability and alignment, explaining the possible reasons and long term implications along the way. Orthopedics 2.0 also explores how Regenexx is pioneering the new field of Interventional Orthopedics, where the use of regenerative biologic treatments, such as adult stem cell therapy and platelet rich plasma, are being used to help repair and strengthen damaged tissues, as opposed to invasive surgeries that often remove important tissues when a joint or the spine becomes damaged.

With hyperlinks to more detailed information, related studies and commentary, this book condenses a vast amount of data and resources into an enjoyable and entertaining read.

About Regenexx

Since its genesis in 2005, Regenexx has been a world-leader in the use of adult stem cell treatments for orthopedic conditions, providing non-surgical, biologic therapies delivered with high accuracy through a needle. Regenexx has collected and published more data on stem cell patients than any other company and are dedicated to reinventing orthopedic care to help patients avoid invasive surgery.

Featured on television and media outlets such as the Doctors TV show, ABC News, Good Morning America and many others, Regenexx is taking orthopedic stem cell therapy to an exciting new level.
