

# Online reverse auction for auto transport shipping community

Released on = April 14, 2007, 2:15 pm

Press Release Author = CarrierRates.com

Industry = [Transportation & Logistics](#)

Press Release Summary = CarrierRates.com is braced to become the largest network on transportation of cars and light trucks to the auto industry. Useful features and benefits of this network are a result of extensive research conducted nationwide of auto transport carriers (providers) and shippers (users).

Press Release Body = "Here's a wakeup call for the people involved in shipping and logistics for the auto industry, shape your business around technology to succeed", says John Skelton of arrierRates.com, get evolved to compete and maximize profitability with the use of technology. This industry is and has suffered, mostly due to missed opportunity and failure to provide a common network community between auto transport carriers and shippers.

A small team of experts made up from auto shipping, auto industry wholesale buyers and technology programmers have collaborated to solve the problems by developing a nationwide method that uses technology to provide a neutral platform to integrate the auto hipping industry. Heading this team of experts is Mr. John Skelton, who has a vast experience of working as an auto transport and logistics provider.

This method is offered as an Internet network called CarrierRates.com

CarrierRates.com is braced to become the largest network on transportation of cars and light trucks to the auto industry. Useful features and benefits of this network are a result of extensive research conducted nationwide of auto transport carriers (providers) and shippers (users).

The main features of this network are:

- Auto Transport Shippers can post their car shipping needs and requirement. The auto transport carriers can reply directly to the users with their offer online.
- Tracking System: Allows user to track shipments from any provider. Features of this network are free to providers and users pay a nominal fee.

Following features are currently under development:

- Forums – A place to question, comment, search and provide ideas, opinions and solutions
- Directory – For meaningful auto industry and shipping information from suppliers.
- News – Latest community news.
- Jobs – A free job-posting site for both users and providers in this community.
