Press Release Summary = **iTech Workshop (iTech), a Bangalore, India, based Healthcare IT solutions company with special focus on HIPAA, X12N, Direct Payer Connectivity, Electronic Claim Life Cycle Management, Medical Billing Products and Solutions for the US healthcare domain, announces a partnership with CSI-NorthWest a Division of TurnKey Technology Systems Inc., to deliver a Real Time Claims Processing and Claims Correction Clearinghouse solution powered by its expEDIum Claims Portal (eCP) solution and expEDIum Claims Portal Components.**

Press Release Body = **iTech Workshop (iTech)**, a Bangalore, India, based Healthcare IT solutions company with special focus on HIPAA, X12N, Direct Payer Connectivity, Electronic Claim Life Cycle Management, Medical Billing Products and Solutions for the US healthcare domain, announces a partnership with CSI-NorthWest a Division of TurnKey Technology Systems Inc., to deliver a Real Time Claims Processing and Claims Correction Clearinghouse solution powered by its expEDIum Claims Portal (eCP) solution and expEDIum Claims Portal Components.

This secured web-based portal service provides optimal connectivity to Payers for a variety of accounts such as Providers, Billing Services, and Clearinghouses, making the claim life cycle management more efficient.

Utilizing **iTech**'s solution gives providers more control over the life cycle of their claims and CSI-NorthWest is actively marketing to increase their claim processing by an additional 50,000 claims per day.

Mr. Siva Narayanaswamy, CEO of iTech said that "this solution is a step forward in **iTech**'s endeavor to create solutions that reduce healthcare costs and is looking forward to a long term relation with **CSI-NorthWest** in building and supporting the web-portal service".

Miss London Smythe, CEO of CSI-NorthWest said that "this web-portal service, jointly developed with **iTech**, is the needed solution for today's healthcare providers. Implementation of this solution will optimally reduce clinical production costs and increase provider cash flow. The user friendly portal offers a variety of services including claim tracking, on-line claim correction, customizable reporting, processing secondary claims electronically, electronic patient statements and additional useful benefits."

About iTech
iTech Workshop, with its expEDIum suite is one of the few companies in the world that provides a broad range of software products, solutions and services in the USA Healthcare Claims Processing and Billing domain. These are cost-effective, sustainable and robust solutions and provide a very good Return on Investment (ROI) for its clients. iTech can be reached through its website http://www.itechws.com. **iTech** is a Bangalore, India based company.

About CSI-NorthWest a Division of TurnKey Technology Systems Inc.
CSI-NorthWest is a Pacific Northwest based clearinghouse with a collective healthcare experience spanning more than 15 years and processes healthcare transactions from providers nationwide. CSI-NorthWest is simplifying the healthcare transaction process by reducing administrative costs, improving efficiencies, and creating faster results for all participants.
