Press Release Summary: The Earth Transformation Japan Tour was the very first international conference ever held in Japan on the topic of extraterrestrials and their messages for humanity. The conference tour featured international experts on New Science and Technology, Spirituality and Exopolitics.

Press Release Body: The **Exopolitics Institute** is delighted to announce the successful completion of a three city conference tour of Japan held over the period September 22 - 29. Titled, "**Earth Transformation - Japan Tour 2007**", the conferences discussed topics associated with an earlier "**Earth Transformation**" conference held in Hawaii (May 11-13, 2007 – see www.EarthTransformation.com) that explored **New Science and Technology, Spirituality and Exopolitics**. Five leading international experts - researchers, 'contactees' and multidimensional communicators - traveled to Osaka, Sapporo, and Makuhari/Tokyo. The **Earth Transformation Japan Tour** was the very first international conference ever held in Japan on the topic of extraterrestrials and their messages for humanity.

The **Japan Tour** was jointly organized between the **Exopolitics Institute** and the "**New Earth Civilization Creation Club**" based in Japan. The five international speakers were led by **Dr Michael Salla** and **Angelika Whitecliff** who co-organized the Tour on behalf of the **Exopolitics Institute**. Dr Salla began each conference with a presentation that detailed the relationship between **Extraterrestrial Civilizations, Science** and **Spirituality** using an **extraterrestrial typology popularized by Michio Kaku** (see: <http://exopolitics.org/Exo-Comment-53.htm>). Angelika Whitecliff presented on several topics including the multidimensional capabilities of cetaceans, an anthropological analysis of humanity's origins, humanity's relationship with extraterrestrial life and the inherent spiritual potential possessed by humans.

The world's foremost expert on human contact with extraterrestrials, **Wendelle Stevens** (Lt Col., USAF. Ret.) was also a speaker for the **Earth Transformation Japan Tour**, and continued his long association with Japan which dated from his military service during World War II when he attended surrender negotiations in 1945. Col Stevens gave successive presentations on contactee cases associated with the **Pleiades**, the planet **Venus** and **Underwater Sea bases**. The next speaker was **Alex Collier**, who spoke in public for the first time in five years. He gave a detailed account of his contact experiences with a human looking extraterrestrial race from the **Andromeda Constellation**, and the spiritual message they hold for humanity.

The final presenter was Mexican Shaman and contactee **Hector Palacios** who described his personal experiences of travels on a number of extraterrestrial vehicles and visits to other planets. He showed a series of photos involving initiation ceremonies he conducts at the ancient ruin of Chicomostoc near the city of Zacatecas, Mexico, where he resides. The initiation photos showed a number of UFOs and anomalous light emissions that thrilled the Japanese audience.

The final session of each conference was a panel of all five speakers who responded to a range of questions from the Japanese audience. Many questions focused on the 2012 and what it portends for Japan which is a very cohesive though vulnerable society residing in one of the world's most unstable regions. Many of the Japanese audience that attended the conference were deeply touched by the personal experiences, spiritual wisdom and technological information showed at the conference. The speakers were genuinely moved by the deep bonds of friendship and emotions of the Japanese audience who were

hearing much detailed information about extraterrestrial life never presented before in Japan.

Presentations at the final conference in Makuhari/Tokyo were recorded and will be shortly be made available for free online. To be notified when they become available please subscribe to the **Exopolitics Institute News** list at: [http://tech.groups.yahoo.com/group/Exopolitics Institute News/](http://tech.groups.yahoo.com/group/Exopolitics%20Institute%20News/)

The **Exopolitics Institute** sincerely thanks **Sakae Seethe Mata, Takeo Uchiyama**, the **Japan Nature Company**, the **Kuroudo Cooperation, Taiko and Co.**, and members of the **New Earth Civilization Creation Club**, for their excellent organization of each event at Osaka, Sapporo, and Makuhari/Tokyo. We are especially grateful for their generous hospitality in catering to all the needs of the five international speakers and spouses, and for making available DVDs of the final presentations for public dissemination.
