**Press Release Summary: Single Property Sites has launched SPS STUDIO™ making every property website a dramatic and elegant virtual tour presentation with super-large images, dynamic SlideShow and a new, slick, user interface.**

Press Release Body: [Single Property Sites Inc.](#) today announced **SPS STUDIO™** which makes every property website a dramatic and elegant virtual tour presentation with super-large images, dynamic SlideShow technology and a new slick user interface. **SPS™ Clients** will immediately benefit by seeing their Listings presented with sooth-flow navigation, slick pop-up interactive screens and property images up to 1000 pixels wide, all of which are designed to help Agents impress and win more sellers, and get listings sold by exciting the interest of Buyers.

All existing client property websites now utilize **SPS STUDIO**. Existing customers can easily replace smaller photos on current sites, with new high-resolution images using the new **FAST FOTO™ Replacement system**, which provides a Wizard to upload multiple mega-pixel images as replacements, all in a few seconds.

With the launch of **SPS STUDIO, Single Property Sites** now offers **Real Estate Listing Agents** the industry's most comprehensive Listing marketing tool, all in a single easy-to-use system. Agents can upload unlimited high resolution images and also use special unbranded links to utilize their property site with their MLS as the Virtual Tour link for the property.

Reaction from Clients has been very positive. *"Single Property Sites has become an invaluable listing tool"*, said **Tupper Briggs, RE/MAX ALLIANCE**, (see a listing at <http://www.31899QuarterHorse.com>) *"The new features provided by STUDIO are helping us engage Buyers and impress our sellers. The whole team now use SPS."*

*"For as low as \$5 per listing per month, Single Property Sites is now the premium option for showcasing every one of your listings"*, says **Paul Eastwood, President of Single Property Sites Inc.** *"The new STUDIO presentation of Listings, with super-large high-resolution images means Single Property Sites now exceeds the expectations many agents have for a Virtual Tour service. Single Property Sites gives Real Estate professionals a single solution for elegant Virtual Tours combined as part of an extensive website dedicated to the Sellers property."*
