

Optimalon has released version 2.5 of its linear programming library

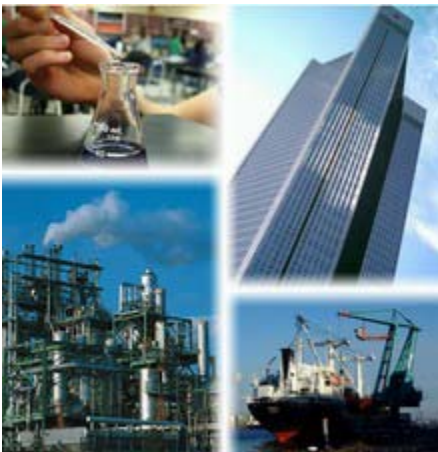

Optimalon Software

Released on: January 16, 2008, 3:45 pm

Press Release Author: [Optimalon Software](#)

Industry: [Computers](#)

Press Release Summary: Looking for a reliable, fast and simple way to solve the linear programming problems? New version 2.5 of Gipals32 is ready to help you and bring the robust optimization to any Windows - based applications. Special academic license satisfies any budget constraints for researchers, teachers or students.

Press Release Body: **Mr. Smirnov, Marketing Director of the innovative software development firm, Optimalon Software**, today announced the release of the company's newest version of its successful **Linear Programming Library Gipals32**. The innovation brings a simple and reliable way to solve any kind of the linear programming tasks that occur in logistic, transportation, oil refinery, financial and educational areas.

The calculation numeric stability has been dramatically improved in the new version that allows solving more hard instances of the linear programming problems.

Several new programming languages examples have been added to simplify the integration into the client systems.

Mr. Smirnov: *"More and more companies are recognizing the importance of the optimization in order to stay competitive on the market. Our product **Gipals32** brings the vast potential for them, as it has proven to be ideal solution for many research institutions and production companies."*

More information and free trial version of the **Gipals32** is available at **Optimalon Software** Web site:
