

# Now is a great time to remodel your existing home!

Released on: May 27, 2008, 8:37 am

Press Release Author: [Tidewater Builders, Inc.](#)

Industry: [Construction](#)

**Press Release Summary: Are you looking for a change? Sometimes you do not have to stray far from home to make that much needed change. With a flooded housing market and home values dropping in most areas of the country now is a great time to look into making small changes with dramatic effects. Now is a great time to remodel your existing home.**

Press Release Body: Add updated elements or square footage to your existing home and watch the value creep back up! One might ask how can I afford to pay for a new screened porch or updated kitchen? How much would it cost to remodel the old shower tub combo into a mediterranean ceramic tile paradise? There are a few ways to pay for these home projects without cashing out your life savings. A few ideas revolve around the current equity in your home.

First get a quote from a reputable building or remodeling company like **Tidewater Builders, Inc.** Did you know that **Tidewater Builders, Inc.** not only builds fine quality custom homes in Horry County,

South Carolina but also has a division of the company dedicated to remodel, fit-ups, and design all along the Grand Strand area? They will meet with you and discuss your ideas, job time frames, estimated costs, and how they can turn your idea into a masterpiece!

Next you will need to go to a mortgage lender to find out how to use the current equity in your home to pay for the changes you want to make to your home. You may ask the lender if you can take equity out of your home or you may ask if you qualify to refinance with cash out to see if you can get a lower interest rate than you have on your current mortgage.
