Press Release Body: **Barclays Financial Planning** has announced that it is to run a prize draw giving customers the chance to be one of twenty winners who will receive £10,000 to invest for the future, simply by having a financial review with one of **Barclays Financial Planning Managers** before 31 July 2008. Participating customers will then be automatically entered into a prize draw and the £10,000 prizes will be used by the winners to help fund their children's future or help provide for their own financial security during their retirement.

Barclays believe that the offer of £10,000 is an ideal amount to help many of their customers plan ahead for the unforeseeable future. With the knowledge that the unpredictability and ever-changing pace of modern life often leads many people to neglect planning for the future and not allow for the time to get their finances in shape, [Barclays Financial Planning service](#) has set out to help a lucky few prepare to get their finances back in order.

Realising that investment and retirement plans are as unique as the person they cover, the ten lucky winners will have an appointment with a **Financial Planner**, who will recommend the most suitable way for them to invest the prize of £10,000.

Over the years, **Barclays Financial Planning** has successfully built up a reputation based on trust, quality and ease of customer experience. According to a **Millward Brown BFP Customer Satisfaction** survey conducted earlier this year, **Barclays'** attention to detail and customer service has resulted in eight out of ten people who have received financial advice from Barclays recommending the financial planning services to other people.

Whether customers are looking towards [financial investment](#) to help give their child the best possible start in life or simply organising their finances to help them have sufficient money to relax with during their retirement, Barclays are encouraging customers not to put it off any longer but to enjoy the peace of mind that comes with [investment](#) and [retirement planning](#).

Customers wanting to enter the draw can simply call 0800 587 2024 to book an appointment, or visit www.barclays.co.uk/financialplanning/win.html for further information on **Barclays Financial Planning**, or to request a callback.

About Barclays Financial Planning:
Barclays Financial Planning provides a combination of financial expertise and products selected from an array of prestigious providers, in addition to their own 'in house' investment products and solutions. Financial planning helps many people throughout the UK fulfil their ambitions - whatever they may be.

Committed to giving customers the best financial planning service it can, Barclays Financial Planning has joined forces with some of the leading names in the industry including AEGON, AXA, Friends Provident, Legal & General, Norwich Union, Prudential, Standard Life and many more to complement their own services.

Barclays has a network of over 800 experts available to aid customers with investments, fund management, tax solutions and a host of other financial services tailored for the customer's specific needs.
