Press Release Body: Cape Verdean Zouk songstress **Suzanna Lubrano** has received a Platinum album for her third CD '**Tudo Pa Bo**' in the Southern African country of Mozambique.

Suzanna Lubrano visited Mozambique for the promotion of

her new album '**Saida (Exit)**', due out in the United States next month. To receive Platinum for her previous album '**Tudo Pa Bo (All For You)**' is a big surprise for the popular African artist: *"With large numbers of illegal copies on the market, selling over 40,000 official CD's in Mozambique is quite an achievement"*, says the excited singer.

Suzanna Lubrano previously received Gold and Platinum CD's in Portuguese Africa for her albums '**Fofo (Honey)**' and again '**Tudo Pa Bo**'. Over four years ago, the Cape Verdean songstress expanded her popularity when elected **Best Female Artist of Africa at the Kora All African Music Awards**, the African equivalent of the Grammy, at a TV show watched by over 600 million viewers across the globe.

Last year, Suzanna signed a record deal with Boston based **Mass Appeal Entertainment**. For more information: www.suzannaonline.com

Suzanna Lubrano, who already enjoys popularity in the United States among the large Cape Verdean community in New England, will be introduced to a wider American audience with the release of her fourth album '**Saida**' in July. '**Saida**' will be Suzanna's first nationwide release in the United States.

Backed by a wide array of producers, the diverse pop album contains 19 tracks: from Sexy Cape Verdean Zouk Love to more traditional Cape Verdean Batuku and delicate R&B ballads in English. As a bonus to well over 75 minutes of great music, the album includes a documentary DVD on Suzanna entitled '**Inside and Out**'.
