**Press Release Summary: Cognitive Technologies GB last month signed an exclusive deal for the Electrical Works, Intelligent Pre-Wiring, High Definition Distribution & Audio Pre-Wiring at 3 prestigious apartment blocks in Manchester and Acomb (York).**

Press Release Body: Cognitive Technologies GB ([www.ctgb.co.uk](http://www.ctgb.co.uk)) last month signed an exclusive deal for the Electrical Works, Intelligent Pre-Wiring, High Definition Distribution & Audio Pre-Wiring at 3 prestigious apartment blocks in Manchester and Acomb (York).

The apartment blocks have been developed in exclusive locations & when completed will offer all the latest in design and thanks to Cognitive, the technology too.

A spokesperson for the company said: "This is a great opportunity to work for a prestigious developer such as DKNP. We have been talking to many

developers about the advantage of using Intelligent Home Control Equipment and DKNP are forward thinking enough to see the benefit.

"We are hoping to include this type of system as standard in to all DKNP properties over the next 2 years.

"The 3 apartment blocks – Ingenta Manchester, Aspire Bootham and The Rise Acomb will all be fitted with our top of the range Intelligent, Entertainment & Audio systems, a real must for any prestigious new build!"

"The [Intelligent Home Control](#) systems will provide the owners with the peace of mind that their home is safe & secure. It can detect possible leaks & shut the relevant supply down. It has sophisticated intruder detectors & it can offer more flexibility & independence for those with disabilities. What sets the system apart from its rivals, though, is the ease of use. It is the first central intelligence system in which all functions are controlled from a simple, centralised hub.

"The [Multi Room Audio](#) & Entertainment systems provide the ability to listen to music and watch TV all around the home. They offer the highest levels of performance, excellent reliability and importantly, a high degree of interconnectivity. They are really seen as one of the major components in a modern home."

The work is due to be completed in 2010.
